

The Nile

The first Nile was  
used by lots of Egyptians  
in the olden days.

It was used for  
water, food protection  
and growing crops

Did you know  
The Nile Nile  
actually flows  
downwards

The Nile is in Africa.  
The river is still there  
for and comes in a way & fill.

Did you know it  
is 6650 km long
